Music Together® is an innovative music program developed by the Center for Music in Young Children® specifically for infant through preschool age children. In our 45 minute class, we provide some very special bonding time! Each of the song collections used in class include a wide variety of musical styles, tonalities and rhythms to provide a rich environment for children and their caregivers to grow musically.

Another program designed to bring out the best in your child. What your child needs to be successful in today's highly competitive world is to be confident and articulate. Whether destined for the stage, the boardroom or the classroom, Drama Kids prepares children and young adults to speak up clearly with confidence putting them on an easier path for lifelong success.
